

DBT STAR COLLEGE PROGRAMME

The "Star College Scheme for Strengthening of Science Education and Training at Undergraduate Level" demands improvement of undergraduate education in science encouraging critical thinking, 'hands on' experimental learning and innovative activities.

Sree Narayana College, Nattika is proud to have been included in **DBT STAR College Scheme**.

Department of Biotechnology (DBT), Ministry of Science & Technology, Government of India is committed to "the values of i) Pursuit of excellence ii) Academic and intellectual freedom iii) Creativity and innovation iv) Diversity v) Cooperation and Communication & vi) accountability".

The Star College Programme was initiated by DBT in 2008 to support colleges offering undergraduate education, with a view to improve science teaching across the country. It envisions encouraging more students to take up higher education in science. Through this programme the Department of Biotechnology identifies colleges with potential for excellence and provides support for developing infrastructure for academics and laboratory activities. This support is in turn expected to make teaching dynamic and provide students with unique exposure to experimental science.
